## DETAILED ACTION

### *Reasons for Allowance*

1. The previous Office Action filed on 06/29/05 that based on U.S. Patent No. 6,177,685, which is overcome by the Declaration (37 C.F.R. §1.132) filed on 10/10/05.
2. Claims 1-14 and 17-21 are allowed because Applicant indicated in the Declaration that "the thickness of AlN buffer layer (2/32) of Teraguchi is 20 nanometers and is not sufficiently thick to increase the source-drain breakdown voltage of the transistors disclosed by Teraguchi"; and "the AlN buffer layer (2/32) of Teraguchi increases the electron mobility of the transistor (see con. 7, lines 65-col. 8, line 2) and increasing the electron mobility of the transistors does not necessarily increase the source-drain breakdown voltage of the transistors." Therefore, the prior art of record fails to disclose " a sub-buffer layer deposited above the transitional layer and adapted to increase a source-drain breakdown voltage of the GAN transistor structure by preventing electrons from entering the transitional layer and the substrate during high voltage operation".

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance." Any inquiry concerning this communication or earlier communications from the examiner should be directed to Theresa T. Doan whose telephone number is (571) 272-1704. The examiner can normally be reached on Monday to Friday from 7:00AM - 4:00PM.
